

Extra Space Self Storage opens its first self storage facility in Malaysia

Extra Space Self Storage Singapore is pleased to announce the launch of Extra Space Chan Sow Lin, the first self storage facility to open in Malaysia.

Extra Space Self Storage is a leader in the self storage business, providing self storage facilities and services that meet the needs of space-starved individuals, families and businesses. We provide secure, do-it-yourself storage rooms for as short as two weeks or as long a period as needed. In return, homes are freed of clutter, small businesses have space to grow and our customers have peace of mind that their items are in a secure place.

Extra Space started with just one such facility in 2007. It's now grown to five strategically located facilities in Singapore. On 9th November 2010, we opened our first facility in Korea in the district of Gangnam, Seoul and on 8th February 2012, we opened our Kuala Lumpur, Malaysia facility.

We offer customers a wide range of storage units, giving you the flexibility to rent space sizes according to your needs. These range from large lockers for students and backpackers and small 28 sq. ft. walk in storage units which can store a few boxes, to big 250 sq. ft. units. Customers also benefit from the freedom to up or down size at any time (subject to availability). You can rent your own clean, dry, private, self-contained storage room, and lock it with your own padlock. You are the only key holder to your self storage space.

Our newest facility at Chan Sow Lin, Kuala Lumpur is strategically located where it's only 15 minutes away from Kuala Lumpur city center and is conveniently accessible via various highways including the Mahameru Highway, Federal Highway and New Pantai Expressway.

Our facility also feature sophisticated 24-hour security systems including a personal access code system which allows customers to access their property at their own convenience, 24 hours a day, seven days a week, 365 days a year.

Customers can store almost anything from personal collection of toys, books, magazines to storing furniture and household items temporarily while moving in between houses. Businesses that require a convenient, flexible solution to better manage their logistics or to free up more expensive floor space can also store their stocks and archive documents in our storage facility.

A free quote for your storage needs can be obtained by visiting the Extra Space web site www.extraspace.com.my or toll free number: 1300 22 0288.
